

## Wheelie Bin Tours Peninsula To Highlight Waste Crisis

Submitted by Full Cycle  
Friday, 03 August 2007

[Pressportal.co.za] In an effort to draw attention to our worsening waste crisis, environmentalists are walking a municipal wheelie bin around the city from 9 August. Ray D. Chaplin [3Poles] and Mary Murphy, who has worked on numerous waste minimisation campaigns, will be walking the bin around the Peninsula from 9-13 August. All members of the public are invited to join in the walk and to deposit signed waste into the bin, which will graphically display the contents of an average Capetonian's waste.

Mary Murphy: "We are doing this to highlight the positive steps that people can take to alleviate the growing waste problem. The City of Cape Town announced at its Waste Summit on 11 April that we are in a crisis and that everybody needs to get involved to solve the problem. We have 3-4 years of landfill space left and all waste service providers have been notified to start recycling initiatives.

"The first, managed by Wasteplan, will start in the Atlantic Area on 13 August and by 13 November the entire city will have a household waste separation system in place.

"Ray and I will be walking from the City centre around Sea Point and Camps Bay to Hout Bay on Thursday 9 August. On Friday we will walk from Hout Bay to Noordhoek where we will feed earthworms with organic waste at the Noordhoek Farm Village.

"On Saturday we will walk from Noordhoek around the coast via Kalk Bay and Muizenberg to Constantia's Municipal Drop-off Centre, where we will show how Wasteplan is managing the site using Emon (Environmental Monitoring via sms) and highlighting what can be recycled by householders.

"On Sunday/Monday we will walk to the City centre and end at Parliament."

Lives updates & photographs will be available throughout the walk on Ray's extreme-adventure-website: [www.3poles.co.za](http://www.3poles.co.za)
